

## ACKNOWLEDGEMENTS

My deepest respect goes to Dr. Mike Nelson for your excellent guidance throughout my graduate program. You required a professionalism I needed, as you demanded data and systematic analysis of behaviors. I still trust my instinct but now back it up with objective supports. I hope to continue learning, growing and reaching for excellence. I'm proud to have had the opportunity to share in your wealth of knowledge.

My deepest appreciation goes to the staff at the University of Kentucky College of Special Education. I didn't take the easy way out when I signed up for your program—I wanted a program that would expand my knowledge. Each one of you has exceeded my hope and expectation. I will return for more....

My deepest love goes to my family. My husband kept the home fires burning during the many, many hours I attended class and studied at home. You even set a fire under me when I needed a little more motivation. You are the spice I need. My love for my three children overwhelms me. You give me hugs when I need them and even when I don't. You sympathize when you see the tons of writing revisions I have and no longer complain when I suggest revisions on your papers. This shows you understand the need and the love for learning. I'm thrilled to see you beginning to use the basic concepts of behavior in your day-to-day friendships. I hope you grow to be as wise as your dad.

My deepest thanks goes to my students who participated in this study and others through the years. You have taught me well. Thank you for helping me understand your needs and giving me tons of positive reinforcement. I wake each morning and look forward to seeing you. Thank you for motivating me. When I stop learning and growing, I promise to retire because you deserve the best. You are worth it!

TABLE OF CONTENTS

Acknowledgements ..... iii

List of Tables ..... vii

List of Figures ..... viii

Chapter One: Introduction ..... 1

Chapter Two: Review of Literature ..... 3

    Math Achievement Among Students with Learning Disabilities ..... 3

    National Reform Standards in Mathematics Achievement ..... 4

    Rational for Learning Facts ..... 5

        Basic Facts ..... 5

        Levels of Instruction ..... 5

    Instructional Strategies for Teaching Math ..... 6

    Implications for Instruction with Students with Behavior Problems ..... 9

    Purpose of Research ..... 10

Chapter Three: Methods ..... 11

    Participants ..... 12

    Setting ..... 15

    Materials ..... 15

    Data Collection ..... 17

    Procedures ..... 18

        General Procedures ..... 18

        Baseline ..... 18

        Intervention ..... 19

Probe Sessions .....	19
General Procedures for Touchpoints.....	20
Touchpoint Acquisition .....	20
Intervention: TouchMath Strategy 1 .....	21
Strategy 2 .....	22
General Procedures for Manipulatives.....	22
Intervention: Manipulatives. Strategy 1 .....	22
Strategy 2 .....	23
General Procedures for Control Set .....	24
Daily Probes.....	24
Touchpoints and Set C.....	24
Experimental Design .....	24
Reliability.....	25
Social Validity.....	26
Data Analysis .....	27
Effectiveness of Touchpoints vs. Manipulatives.....	27
Doug.....	27
Keith.....	30
Richard .....	33
Michael.....	35
Rye .....	37
Tim.....	39
Efficiency of Touchpoints vs. Manipulatives .....	41

Student Preference for Touchpoints vs. Manipulatives.....	43
Chapter Five: Discussion.....	45
Limitations .....	47
Implications for Future Research .....	48
Appendices	
A. Touchpoint Counting Pattern .....	50
B. Addition Sets .....	53
C. Set A Probe Worksheet Sample.....	55
D. Set B Probe Worksheet Sample.....	58
E. Set C Probe Worksheet Sample .....	61
F. Classroom Discipline Procedure.....	64
G. Reliability of Student Response for Baseline and Probe Sessions .....	66
H. Student Response for Touchpoint Acquisition.....	71
I. Sample lesson plan teaching with touchpoints .....	73
J. Sample Lesson Plan Teaching with manipulatives.....	78
K. Procedural Reliability Procedures .....	81
L. Student Survey .....	86
References .....	88
Vita.....	95
