The origins of ice skating can be traced back 5,000 years to the southern portion of Finland, where people looking for a quicker way to get around in winter months, strapped animal bones to their feet so they could glide across icy surfaces.
What a wild winter day! Talk about the items you see in this winter picture. What else might you see on a winter day?

Use the picture above and write **addition sentences** for the items below. Then tell the addition stories to a friend.

\[
\begin{align*}
\text{_____} \bigcirc s & \quad + \quad \text{_____} \bigcirc s & = & \quad \text{_____} \bigcirc s \\
\text{_____} \bullet s & \quad + \quad \text{_____} \bullet s & = & \quad \text{_____} \bullet s \\
\text{_____} \star s & \quad + \quad \text{_____} \star s & = & \quad \text{_____} \star s
\end{align*}
\]

Touch and say the top number and continue counting on the TouchPoints of the bottom number. Then write the answer.

\[
\begin{align*}
12 \quad +8 \\
10 \quad +6 \\
15 \quad +4 \\
17 \quad +3 \\
14 \quad +7 \\
11 \quad +5 \\
16 \quad +9
\end{align*}
\]
Use a colored pencil to fill in each area containing a multiple of 8.
Directions. Cut out the squares. Skip count by the small 3s, then the large 3s to arrange them in order and see the picture in the puzzle.

Solve the problems from left to right. Follow the answers in the maze to help the bug find its leaf.

14 turtles are sitting on a rock. 9 go swimming. How many are left sitting?

8 spiders are on a web. More arrive. Now there are 16. How many arrived?

There are 18 ants eating candy. 9 take a nap. How many ants are still eating?

Ben needs 14 cents. He has 7 cents. How much more money does Ben need?

Dan weighs 14 lbs. Don weighs 8 lbs. Don weighs how much less than Dan?

16 bugs were eating. They all went to play. How many bugs are left eating?

9 skunks are in a line. More arrive. Now there are 13. How many skunks arrived?

8 raccoons are washing food. 7 stop. How many are still washing food?
Skip count by 3 to 30 shading each square as you move left to right. Then draw a path through the maze.
Add the numbers in each row, then write the answer. Read the answers aloud softly to count by 3.
