

TOUCHMATH® GREEN EDITIONS

TouchMath Green Editions FAQs

General Questions

How can I gain access to TouchMath Green Editions?

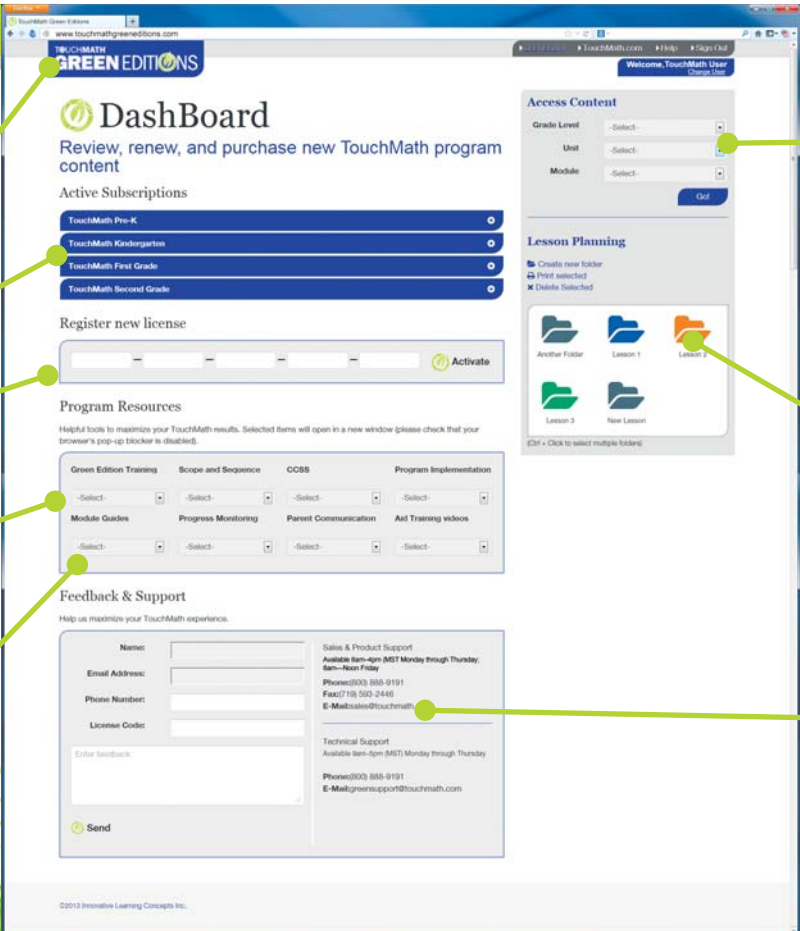

Access to digital *Green Editions* is available to those who purchase any Pre-K through 2nd Grade Unit, Core Program, Complete Program, or Expanded Program.

- Users who purchase any Pre-K through 2nd Grade Unit in the traditional print format receive access to the digital *Green Edition* equivalent as an added benefit.
- Users can also purchase just the digital *Green Edition* version of any Pre-K through 2nd Grade Unit at a greatly reduced cost.

I'm logged into my TouchMath Green Editions account, now what?

Intuitive, and easy-to-use *TouchMath Green Editions* helps you get access to your content quickly.

Content Screen ▶

Access grade- and unit-specific module guides, progress monitoring, and parent communication letters.

Click on title bar to expand or collapse each module or unit.

View individual activity sheets. Mouse-over for thumbnails, or double-click for detailed page view and instructional information.

Easily search for and identify content based on topic.

Click and drag to add pages to custom folders. Ctrl+Click to select multiple pages at once. Use same technique to print or delete pages or folders.

What materials do I have access to with Green Editions?

Users who purchase and register their TouchMath unit(s) through the *Green Editions* online lesson management tool gain access to all student activity sheets and teaching strategies contained in the print version equivalent. Within the *Green Editions* interface, each student activity sheet contains the following teacher tools: Instructional Strategies, Materials Needed, Vocabulary, Real-World Connections, and Literature Recommendations. Also available to view/print: Unit Implementation Guides, Parent Communication Letters, and Progress Monitoring Charts. Common Core correlations, and video tutorials are also available to ease your lesson planning.

How can I monitor student progress?

The system provides the Progress Monitoring Chart in downloadable/printable Excel file format. This is the same chart found in the unit's printed Implementation Guides, and can be used within your *Green Editions* account for digital tracking of data and student progress.

Licensing Questions

How do I register my license key(s)?

There are two ways to obtain access to *Green Editions*: As an added bonus with purchase of any TouchMath pre-K-2 traditional print unit; or by purchasing the digital *Green Edition* units on their own. The license key activation process is the same regardless of purchase method, however, users who have the traditional print unit and wish to activate their account will see their activation license key on the side of their unit box. Users who purchase the digital program only will receive an email with license activation key(s).*

To activate your *Green Editions* account:

1. Go to www.touchmathgreeneditions.com.
2. Sign in using your touchmath.com account login information. If you are a new user, you will need to create a touchmath.com account.
3. When you are logged in to your *Green Editions* account, you will see an area at the top of your dashboard to “Register new license.”
4. Enter your license key(s) and click “Activate.” Each license key will need to be entered and activated separately.
5. You now have access to your *Green Edition* materials and can begin to browse, customize, and lesson plan!

* Customers who purchase *Green Edition* units with a credit card will receive an immediate confirmation email, as well as a follow-up email when the order is processed. Both emails will include your license keys. Customers who purchase *Green Edition* units with a purchase order and indicate an email address on the PO will receive an email with license keys when the order is processed. If no email address is indicated on the PO, license keys will be listed on your packing slip and invoice as part of your physical shipment of applicable unit manipulatives.

How long does my license last?

All license keys are perpetual. Once registered, there is no expiration on access to your *Green Editions* account.

What if a teacher in my district leaves and I want to reassign that license key to another teacher?

Call 1-800-888-9191 to reassign all license keys. Upon receiving written permission from the school contact, TouchMath will reassign the license keys to a new email address as requested.

What are the benefits of creating account administrators for large orders?

For all large district purchases, TouchMath will create an administrator-level account that can be used to centralize all account activities. The holder of the administrator account has the ability to oversee all licenses, and add/delete users as necessary.
