

Name _____

Directions: No guessing! If you know the answer to each problem, write it down. If not, touch the top number, say its name, and count backward on the TouchPoints of the bottom number. Then write the answer, and say the problem and answer quietly.

Directions: Subtract the numbers in the ones column. If you cannot count backward on all of the TouchPoints, regroup by borrowing one ten from the tens column. Add the ten to the ones, then touch and count backward from the new number in the ones column. Then subtract the numbers in the tens column.
